

ONE YEAR HIGH SCHOOL DIPLOMA PROGRAM

CLASSES TAKE PLACE AT MONTEREY BAY ACADEMY WHERE CLASSROOMS AND DORMITORY ROOMS HAVE OCEAN VIEWS.

Attend academic classes and graduate in one year.

ECI has developed a new program to fit the needs of the many academically gifted and talented high school graduates that want to study at a U.S. university but lack the necessary language skills. Many

high school graduates' dreams end with a denial of admission. But now, ECI has developed a program where students can study in the U.S. for one year and graduate from a fully accredited college

preparatory high school with a U.S. high school diploma. During the year of English and academic training, ECI will help the student to apply to and gain acceptance to a U.S. university.

HOW DOES THE PROGRAM WORK?

WHO IS THE PROGRAM FOR?

Students that have graduated from high school in their home country but do not have the English proficiency for admission and a visa to study at a US college or university.

BENEFITS OF PROGRAM

- Students can enter the U.S. to study for one year of study at a college preparatory high school to receive English training and receive a U.S. high school diploma and enter a U.S. university.
- Students receive their initial I-20 from ECI for the Summer Academic Preparation Program and a conditional letter of acceptance from Monterey Bay Academy.
- Students improve their English, experience US academic classes to prepare for study in a U.S. college or university.
- ECI helps students apply and gain acceptance to a U.S. college or university.
- At the end of one year, MBA will provide all successful students with a high school diploma and will transfer the students' I-20 to the U.S. university. The student does not need to apply for a new visa, nor do they have to leave the country.

HOW DOES IT WORK?

1. Students enter the United States on the ECI I-20 for the 10-Week Academic Preparation Program (APP) and a letter of conditional acceptance from Monterey Bay Academy. Academic Preparation Program.
2. Students are given an educational plan at the very start of the program which lists exactly what classes they must take and successfully pass to graduate.
3. During the summer, students can take on-line courses to earn credits in order to graduate in one year.
4. At the end of the summer program, students enter Monterey Bay Academy as fully admitted students.

5. During the year, students take a full load of academic classes, and AP classes.
6. ECI helps students apply to college and universities until they gain admission to a college.
7. At the end of the academic year, students participate in a graduation ceremony.
8. Monterey Bay Academy transfers the student's I-20 to the accepting college or university.

QUALIFICATIONS

Students must have graduated from high school in their home country and want to go to a top college or university.

Students must have an excellent academic, attendance and behavioral record and they must have a Skype video interview with ECI as part of the application process.

While no TOEFL score is required to enter the Academic Preparation Program, students must receive a 500 PB TOEFL score by the end of the summer to take a full load of academic classes. The ECI AP Program offers the TOEFL three times during the summer.

Students not reaching the required score will continue to take ESL classes along with academic classes.

Students between 500 and 550 TOEFL will receive transitional support.
